FORD QUITS; NEWTON IS ELECTED

"Our Town"

by J. B. WHITE

Take-a-chance drivers are the worst enemies of safety. They are on every road and in every crowded thoroughfare of the city. They are always in a hurry. Every second counts with them.

When traffic is running double lines and streets are full, Take-a-chance dodges in and out of traffic and races the field for the next red light. When everybody else is stopping in obediance to signals, he finds opportunity to crowd ahead of two or three and hog a little space. Half the time he is on the wrong side of the street.

The white line drawn down the middle of the street is a mere invitation to him to take a chance. He races along where he has no right-of-way, and makes those who have slow down or be wrecked.

As a matter of fact, the take a chance driver on the streets controlled by automatic signals gains very little time. He races past you endangering life and property, but you usually find him waiting at the next intersection where the signal is against him.

The honest driver who has valid reason for being in a hurry will, if he has good sense, leave the main thoroughfares and proceed on those less frequented where he can drive as fast as speed restrictions permit. But take a chance probably is not reasonably in a hurry. He is merely adventurous. He likes the thrill of horning in, bullying the timid out of his way and missing at high speed by the thickness of the varnish.

Police officers assigned to traffic duty should make a point of sorting out and gathering in this type of driver. He is a menace to the peace and safety of the motoring community.

In other days, when Summer boiled and the city became a fiery furnace, city people swarmed to the country to get cool. They could sit in the shade of the trees, and if the wind blew, they would be fairly comfortable. Now it is the other way about. People go to the city to be cooled. We are long accustomed to going indoors for warmth in winter But to step from the blazing heat of the streets into an air-cooled room is such a new experience it still smacks of the marvelous.

Formerly railroad cars in Summer were like frying pans. Now we ride in air conditioned trains. In the city the great hotels are cooled, theatres supply the temperature of an October day, many shops are like oases in a desert of heat. On the street the thermometer may be in the insufferable nineties, but inside the charming and delightful seventies offer refuge.

The Europeans, when we Americans invented central heating, at first condemned it, and then took it up.

FIRST 1936 BALE GINNED

PRICE 14c HERE TUESDAY

Cameron's first 1936 bale of cotton is in and has been sold for 14c pound.

A. J. Morris, farmer on the Dr. Woodson farm eight miles north of Cameron, produced the bale. It was ginned at Slocomb gin in Cameron late Monday and sold at auction Tuesday afternoon to Stanley H. Swift of the Cameron Theatre. He announced the bale will be given away to-night (Thursday) at the theatre.

The bale weighed 433 pounds and was classed middling with one inch staple.

The bale was ginned from 1210 pounds of seed cotton and the finished package weighed 433 pounds. This is the sixth first bale ginned by the Slocomb gin during the past seven seasons.

The auction was held in the street at the New Cameron Drug Company and Secretary Paden of the Chamber of Commerce auctioned the bale to the highest bidder. Mr. Swift bought the first bale in 1935.

At a called meeting of directors Tuesday morning the chamber voted to auction the first bale each year hereafter. The chamber will be responsible for premiums also.

Secretary Paden said the premium for Mr. Morris will be raised within the next few days.

Cotton is late and the bulk of the crop will not move until September. Rains have retarded cotton and in some sections the crop is said to be disappointing in prospects.

BUCKHOLTS FIRST BALE

BUCKHOLTS, August 4. — The first bale of 1936 cotton grown at Buckholts was ginned Monday at 5 p. m. by the Modern Gin Company.

W. C. Eichenhorst, owener of one of the first Milam county bales, raised the cotton on the R. Benke farm north of Buckholts. Weight of the finished bale was 474 pounds.

Mr. Eichenhorst will receive a premium from Buckholts merchants.

ELEVEN NAMES ARE ON TRUSTEE BALLOT

Eleven names will appear on the official ballot for the special school trustee election to be held here on Tusday August 11th, according to Dan Tyson, city secretary and treasurer.

Mr. Tyson says the following citizens have authorized their names to appear on the ballot: J. C. Martin, Rush A. Thomas, H. H. Stedman, F. S. Lesovsky, Dr. T. E. Crump, Mrs. Giles McDermott, J. W. Haygood, B. J. Matocha, August Kunz, H. E. Graham and H. M. Akers.

Seven are to be elected. The election comes as a result of a poll held in early June changing the system of selecting school trustees. The proponents of the elective system won the election by a majority of two votes.

Senator Newton

DR. W. R. NEWTON

Dr. Newton is the Democratic nominee for State Senator from the 13th District. Bert Ford of McGregor Wednesday withdrew as a candidate, leaving Dr. Newton unopposed.

ISSUES IN TRUSTEE ELECTION CLARIFIED

An election to choose seven trustees by the voters of Cameron has been called for the 11th day of August, according to recent ruling.

After strong solicitations, H. M. Akers, B. J. Matocha, J. W. Haygood and H. E. Graham consented to have their names on the ballot along with other candidates.

It has been rumored that the change in the method of selecting trustees, or a change in the members of the board, may reduce the amount of funds apportioned to the Cameron schools, and possibly hinder the program for completing the athletic building. Any such view is essentially erroneous. The methods of selecting trustees cannot possibly affect the amount of school funds apportioned, and the new building, already nearing completion, will be completed according to contract, regardless of

100 Vote Error Is Corrected In Gause Box For Penn Wolf

In reporting election returns from the Democratic Primary election held on July 25th an error was made in the column listing the vote for Clerk of the District Court from the voting precinct of Gause.

Penn Wolf, successful candidate, received 176 votes at Gause and the published report gave him only 76 votes. The error was made in listing the returns on the unofficial board kept on election night by the committeeman chairman.

Although the Herald did not make the error originally, it is glad to call attention to the shortage in Mr. Wolf's column. His friends at Gause will also be glad to note this credit of 100 votes has been given him.

C. N. GREEN DIES AT HOME HERE WEDNESDAY

C. N. Green, 69, pioneer merchant, was found dead in bed Wednesday morning. When physicians reached his body they said life had been extinct for only a short time, possibly less than 30 minutes.

Mrs. Green and their daughter, Helen, went to the room where Mr. Green had retired for the night to awaken him about 6 o'clock, which was their custom. Death was believed to have been almost instantaneous from a heart stroke.

Funeral arrangements were being completed late Wednesday for burial in Oak Hill Cemetery on Thursday afternoon. The body will be in the home until shortly before the funeral hour set for 5 p. m. Thursday, and will be taken to the Methodist church where Rev. E. L. Ingram, presiding elder of the Marlin district Methodist will conduct services, assisted by Rev. J. Coy Williams, local pastor.

Charles Nathaniel Green was born on April 24, 1867 at Columbus, Georgia, the son of pioneer Southern parents. He was 69 years old.

He had been in declining health for more than a year, although continued active in the management of the C. N. Green & Son Mercantile business in Cameron. His only son, Chas. Frank Green, is associated in the business and is ill at his home and unable to attend the funeral.

Forty-five years ago on December 3rd, he came to Texas and to Milam

Fred Folskinsky, well known farmer of the Ben Anrould community put all the peach stories "in the shade" this week when he exhibited an apple weighing almost a pound. The apple was grown on the Folskinsky farm and is on display at the Stewart Grocery Store.

The Herald, for the last three weeks, has published stories of the giant peaches but this is the first and best apple story of the season.

ICERS vs. ROSEBUD

The Cameron Icers will meet Rosebud Roses in the first game of the Heart O' Texas Area Series here Sunday August 11.

Yoemen Team May Trail in District

Coach Wood is back in town.

It won't be long now. Hazy September skies and the invigorating October nights are just around the corner, not like delayed prosperity, but actually a little over a month away, September 14th, the grass roots convention of the hopefuls, will open when the coach sends them in against Marlin in the annual opening game on Yoemen field.

Well, it won't be long now. What will the 1936 edition of the Yoemen look like? Not so good thinks Coach Wood while others are less hopeful still.

A lot depends on the early opening date for the schools. If the opening date is really early in the month the Coach will have his men clear of permanent injuries and summer lethargy and might be able to give the Bulldogs a good game. If a late start further hampers his none too impressive wealth of material they may reverse the apetizing start of last year and lose their first to the Marlin men.

Outlook Is Dark

Coach Wood says the outlook is dark. Only five letter men from the 1935 team will be back out of 16 who won the coveted decoration. They

Tribute To Wiggles Praised By Editor Of "Dog World"

Will Judy, editor of Dog World, in a letter to Dr. Arthur E. Kruse of Cameron, praises as a "good piece of literature" as well as good sentiment a recent tribute to the famous dog "Wiggles" published in The Herald.

Wiggles was killed by a passing motor car near the home of Mr. and Mrs. B. F. Bonds in Cameron, her owners.

Dr. Kruse, lover of dogs, sent a copy of the Herald to Dog World and has received the following letter from the editor.

July 28, 1936.

Dear Friend

I was pleased indeed to get the copy of this weeks Cameron Herald, and I read the article, Wiggles.

This is indeed a good piece of literature, as well as a good piece of sentiment.

Whenever in the future we can be of any service to you, do not hesitate to request it.

Very sincerely yours,
Will Judy,
Editor of Dog World.

Twin Ears of Corn From Same Stem On Exhibition Here

Twin ears of corn growing from the same stem are on exihibition at the Herald office this week.

The corn was brought in by E. A. Cauthen of Maysfield. It has been often found that a stalk will produce two and even three ears of corn but two ears of equal size and appearance growing from the same stem is unusual.

Mr. Cauthen left the ears at this office so that those who wish to see the unusual growth may do so. Mr. Cauthen is a believer in corn and has planted a large area of his surplus acreage to corn this year.

McCormick-Deering
No. 7 Enclosed-Gear Mower

WE are anxious to have all of our friends see the New McCormick-Deering No. 7 Enclosed-Gear Mower. We think it is one of the finest pieces of farm equipment we have ever sold!

Everybody who has seen it says they never had any idea that a mower could be built as this one is.

For example: The entire operating mechanism, including drive gears, differential, and countershafts, is assembled compactly in an oil-tight gear housing and runs in a bath of oil. There are four high-grade roller bearings. Operation is so smooth and noiseless that you can scarcely hear the light hum of the sickle!

Special oil seals at the ends of the main axle and flywheel shaft, and the oil-tight gear box prevent leakage and protect all working parts against the entrance of dirt and other abrasive materials. Floating action of cutter bar provides ample play without disturbing knife registration.

Yoemen

(Continued from page 1)

are Gerald Mode and Joe McLean, co-captains and backs; Luther Poole, who gave the squad more trouble than the No. 1 men at Alcatraz, is a letter man and eligible at tackle, if he wants to play. Earl Peck, half back who scored the only touchdown against Rockdale in 1935 and who may be called upon this year to take the brunt of backfield, has been working all summer in the Herald plant (he has a permanent wave) and getting in shape for a big season. Coach Wood admitted Peck looks good for the back field. Then there is Jimmie Stewart, the Milano flash, who has been working this summer. He will be back as one of the five letter men. Stewart is backfield star, but may end up at end or some place in the line, all depending on back field developments from the unknown materians at hand.

Light, Fast Club

Coach Wood believes that all he may look forward to this year is a light fast club. He has no line. If the Yoemen have a forward wall it will have to be built for there is not one from the old 1935 line available unless it is Poole.

Stach came through an attack of meningitis last winter. He was the outstanding prospect at end. The question uppermost is will he be able to play this year? Certainly if he has recovered sufficient, no if there is a trace of the old trouble.

Lange and Hatch, Cutheral Heath, Red Guess, Jeff Cammer, end, Hughes, Alexander, Williams, Baldwin and others, will have to supply material for the line, if the Yoemen have one.

Coach Distressed

Coach Wood was distrssed over the loss of the Gilbert Twins of Ben Arnold. They have signed with Rockdale. Yoe High is losing much material by its apathy toward prospects. Gerick from Ad Hall may yet wear the maroon and gray and Bill Sprott of Cameron, if he enters this fall, will have four years in high school and 3 years in football. He's said to be the central theme of a Coach's dream.

Luie Turner who turned in some good games last season when not limping from the punishment of the game, may come through this season, his last under Yoemen colors. Underwood, pass snatcher, de luxe, is one of the hopefuls. Kennon and Taylor Moore are two more prospective horsemen.

Looks Bad For Yoemen

Summing up all phases of the 1936 outlook, it looks bad for the Yoemen. There is little material. The squad is always small and material goes to waste in the less vigorous phases of athletics. Great linemen are tooting horns in the band and tackles get places on the pep squad. It is enough to make any coach pull his hair.

It won't be long now. Anyway it looks like a fast team with little power at this writing. Still it is a long time till November.

"YOU CAN'T MATCH GLASSIES AGAINST AGATES"

A Basic Business Rule Learned At Age 9!

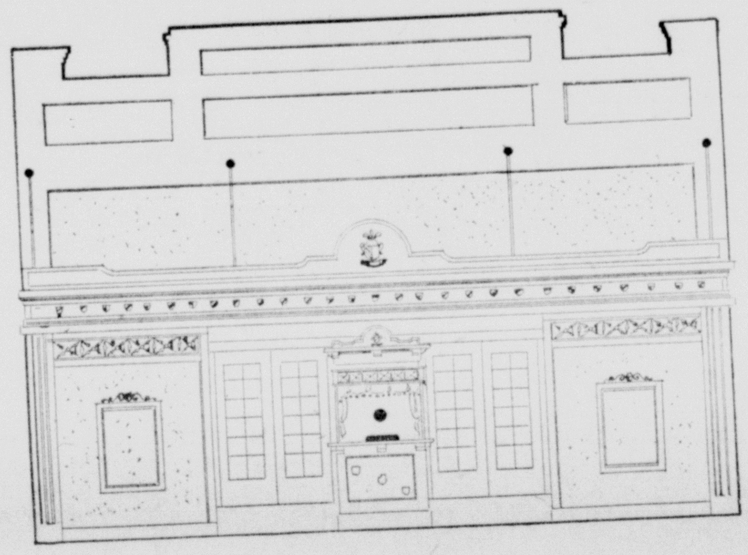

"Glasses," as we remember from our boyhood marble-playing days, were despised imitations of agates, the true aristocrats of the game. At sight, they were hard to tell apart—but woe unto the lad who tried to play glasses for agates. All confidence and respect for him fled; and business relationships were thereafter scorned.

Schiller operates on the principle which this moral teaches. Inferior merchandise and second-hand standards of doing business are taboo. Our trade is conducted on the tested grounds of confidence. Our integrity, our sincere desire to be of superior service are well recognized throughout Milam County.

ADVERTISING AGENCY HEAD DIED JULY 27TH

Wilfred W. Fry, 61, President of N. W. Ayer & Son, Inc., advertising agency of Philadelphia, and a director of many nationally known organizations died in Jefferson Hospital, Philadelphia, on July 27th following an extended illness.

It was a gauge of the personality of Wilfred W. Fry that those who knew him best thought of him—not as a civic leader and executive head of large and important enterprises—but as a friend.

Many honors came to him in the course of his busy and useful life. He achieved an unusuel measure of succss both in business and in public service. But the inherent modesty of his character remained unchanged. He was, and always has been a simple Christian gentleman.

Even at an early stage in his career, these qualities of heart and mind began to be manifest. He was born August 14, 1875, in Mount Vision, New York. His parents, the Reverend Walter Fry and Eleanor A. Fry, were of English blood. Mr. Fry spent his boyhood in Otsego and Delaware counties, New York, and in 1892 entered the Mount Hermon School, Mount Hermon, Massachusetts, where he was a member of the class of 1936. Upon leaving there, his interest in community welfare led him to the service of the Y. M. C. A., then in a significant phase of its development. He worked with that organization for thirteen years, occupyihg posts of increasing importance and contributing much through his exceptional administratidve abilities toward its present social influence and financial stability.

While General Secretary of the Trenton Y. M. C. A., Mr. Fry married, in 1904, Miss Anna Gilman Ayer, daughter of F. Wayland Ayer. There are three children: Mrs. Dena Fry Bree, Miss Eleanor Kemp Fry, and Mr. Wayland Ayer Fry.

In 1909 Mr. Fry came to Philadelphia to become a member of the or-

WILRED W. FRY

ganization of N. W. Ayer & Son. He was admitted to the firm in 1911, made managing partner in 1916, and in 1923, upon the death of Mr. Ayer, became head of the company. When the company was incorporated in 1929, he was made president. He also became president of the N. W. Ayer & Son of Canada, Limited; and governing director of N. W. Ayer & Son, Limited, of London, England.

Mr. Fry was, in addition, president of Meridale Dairies, Inc., of New York, Philadelphia and Atlantic City; and Master of Meridale Farms, Meredith, Delaware county, New York, one of the largest Jersey breeding establishments in America.

He was also director of the First National Bank of Philadelphia, the Great American Insurance Company, the American Alliance Insurance Company, the Great American Indemnity Company, and the Rochester American Insurance Company, (all of New York); also the County Fire Insurance Company of Philadelphia; and president of the Camden and Suburban Railway Company; the Camden Horse Railroad Company, and the West Jersey Traction Company.

These business responsibilities did not, however, lessen in any degree his interest in his fellow men. He continued active in those fields which had occupied him prior to 1909. In 1923 he was elected president of the Camden Y. M. C. A., in which capacity he served until 1936. He was also active in the affairs of the North Baptist Church, Camden, New Jersey, serving as President of the Board of Trustees and Superintendent of the Sunday School; and he was President of the Religious Press Association of Philadelphia.

In 1932 Mr. Fry was made chairman of the International Committee of Young Men's Christian Associations of the United States and Canada.

His interest in education and in the advancement of youth was maintained and amplified with the passing of the years, and many institutions have been helped and encouraged by his generous benefactions.

These years of devoted service in the cause of humanity have received their due recognition. In 1927 Mr. Fry was awarded the honorary degree of Doctor of Laws by Colgate University (of which institution he was a Trustee)—with the citation " . . . Able organizer and administrator, capable and inspiring leader, man of fine intelligence and strong character, he had not been content to reserve these powers for his own personal advantage, but had felt the obligation to use them for the service of his fellow men." He was also a trustee of Brown University, Vice President of the Board of Trustees of Crozer Theological Seminary, and a member of the Board of Managers of the Franklin Institute of Philadelphia.

In 1935 Mr. Fry received the signal honor of election to the Presidency of the Jefferson Medical College and Hospital, Philadelphia, of which he had previously been a trustee, succeeding the late Alba B. Johnson. He was also President of the Board of Trustees of the Northfield Schools, East Northfield, Massachusetts, comprising the Mount Hermon School for boys and the Northfield Seminary for girls.

Mr. Fry was a member of the Pilgrims Society; Vice President of the Society of the Genesee; member of the American Jersey Cattle Club; member (in Philadelphia) of the Art Club, Midday Club, Union League; (in New York) the Union League, Downtown Association, Park Avenue Club; Cooperstown (N. Y.) Country Club; Honorary Associate of the American Guild of Organists; Honorary President of the Musical Art Society of Camden, New Jersey.

His homes were at 406 Penn Street, Camden, New Jersey, and at Meridith, Deleware County, New York.

Take a number from 1 to 10, double it and add a million, and you're still somewhat under the party chairman's estimate.

Laxative combination folks know is trustworthy

The confidence thousands of parents have in good, old reliable, powdered Thedford's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The grown folks stick to the powdered Black-Draught; the youngsters probably will prefer it when they outgrow their childish love of sweets. Mrs. C. W. Adams, of Murray, Ky., writes: "I have used Thedford's Black-Draught (powder) about thirteen years, taking it for biliousness. Black-Draught acts well and I am always pleased with the results. Miss Helen Green Writes About Places Of Interest In North and East From Memory of Recent Tour of Many States of Union

Today one of the main things that strikes the attention of the visitor to New York City is the fact that changes are constantly being effected. Just a few years ago, the building most frequently pointed out was the Empire State Building, because of its unusual height. Today the building project around which interest centers is Rockefeller center, the largest building project ever undertaken by private capital. Ten of the fourteen buildings in the group have been completed. It is a real city within a city, located midway of New York's most important thoroughfare, Fifth Avenue. Beneath the pinacles of its towers are roof gardens, theatres, broadcasting studios, exhibitions, restaurants, offices, and a huge shopping section.

The site occupies twelve acres, originally a medical center, now owned by Columbia University. By a long-term lease providing for the ownership of the buildings to revert to the University, John D. Rockefeller, Jr., and his associates began, on this ground the construction of a series of buildings designed to achieve the utmost in utility, beauty, balance, and inter-related service.

Four buildings comprise the group in the central block: the RCA building (70 stories), the RCA Building West (16 stories), La Maison Francaise (7 stories), and the British Empire Building (7 stories). Five buildings have been completed in the northern block of Rockefeller center: The Plazza d' Italia (6 stories), the International Building (41 stories), the Radio City Music Hall (10 stories), the RKO Building (31 stories), the International Building East (6 stories).

One building, the Center Theatre, has been completed out of four structures planned for the south block.

The art program of the buildings is intended to portray four phases of mankind's progress along successively higher planes of civilization, the historical progress in physical matters; intellectual and spiritual achievement; and the progress of a people as a whole; the rise of great nations.

Of particular interest to the amusement seeker are the Radio City Mnsical Hall, often referred to as "The Show Place of the Nations," which seats 6,200 persons; the Center Theatre, which seats 3,700; and the recently opened Promenade Cafe, between the Maison Francaise, the British Empire Building and the RCA Building.

Riverside Church, better known as the Rockefeller, or Harry Emerson Fosdick's church, and the Cathedral of St. John the Divine, should be on a person's "things to see" list. The dominating feature of the Riverside Church is the memorial tower; above the twenty-second floor raises the great belfry, which houses the Laura Spellman Rockefeller memorial carillon of 72 bells. This carillon contains the largest tuned bell in the world. It weighs more than twenty tons.

Several blocks from Riverside Drive ih the Cathedral of St. John the Divine, which has been under construction for many years, while the building is far from complete, services are held in certain chapels. The golden doors, perhaps attract more comment at present than any other portion. The doors are of bronze, entirely gold plated. The central stone pier is to carry the statue of St. John the Evangelist. Each of the panels of the door depicts scenes from the Old Testament on one side and from the New Testament on the other.

And, of course, there are always the Battery, the Statue of Liberty, the Bowery, Grant's Tomb, Wall Street, the Metropolitan Museum, the Stock Exchange, Coney, Island etc., if one is a new comer, or if one cares to "re-do" these things.

Of the current plays, Robert E. Sherwood's "Idiot's Delight," which was awarded the Pulitzer prize for 1936 with Alfred Lunt and Lynn Fontonne playing the leads, was highly enjoyable. In spite of the fact that Helen Hayes, Katherine Cornell, Ina Claire and Jane Coevl, who played in highly acclaimed plays during the past season, closed their shows at the first breath of summer, a person interested in drama could find good fun in Anne Nichols' "Pre-Honeymoon," Norman Bel Gedde's production of "Dead End," "Boy Meets Girl," and "New Faces of 1936."

In Washington the new buildings, particularly the Supreme Court Building of the Federal Projects, and the Folger Shakespearian Library of the privately owned buildings, are interesting. For the first time, the judges of the United States Supreme Court have private offices in a Federal building. Heretofore they have had their offices in their own homes. The chief court room, the conference rooms, the office suites, the library, and the spiral staircases are very beautifully decorated.

The Folger Shakespearian Library was built in 1932 by Henry C. Folger, a Shakespeare enthusiast and collector. The library contains the most accurate and comprehensive collection of Shakespeariona in the world. The building itself, located near the library of Congress, is an attractive addition to Washington's already beautiful buildings.

The Capitol, the Library of Congress, Lincoln Memorial, Arlington, Lee House, the Smithsonian Institute, St. Albon's Cathedral and Mt. Vernon are places of which a visitor —no, even a resident in Washington never tires. One can go and go again, with ever recurring pleasure in viewing exhibits within their portals.

BEATS THE HEAT! With heat records cracking under a torrid sun, pretty Lucille Booster of the Northshore IGA Food Mart in Chicago takes to sport shorts and shirt for comfort. It's a long way from the orthodox grocer's outfit, but even the customers agreed it helped them forget the heat for a while. Mrs. A. H. Everett is the approving customer.

Miss Maurine Leonard Becomes the Bride of Hilmer Hartung in Quiet Home Wedding Here On Sunday Evening At 6 O'clock, August 2nd

Miss Maurine Leonard of this city and Hilmer Hartung of Lockhart were united in marriage on Sunday evening at 6 o'clock at the home of Mr. and Mrs. J. C. Burke.

Rev. Vernon G. Miles, pastor of the First Baptist Church, performed the ceremony.

Wedding music was rendered by Miss Ida Byrd Mayfield at the piano and Billie Clark on the violin. "Poem" and "I Love You Truly" were the first numbers played.

At the strains of Lohengrin's wedding march, members of the wedding party descended the stairs and took their places at the improvised altar of ferns and pink roses at the end of the hall. Baskets and bowls of pink roses, ferns and pink crepe myrtle were placed along the hallway leading to the altar.

Attending the bride were Miss Marjorie Bodeman of Lockhart, niece of the groom, and Miss Ethel Mondrik of Cameron as bridesmaids; Miss Hilda Burke of Cameron, maid of honor.

Allie Hartung of Lockhart, cousin of the groom, was best man.

Each of the bride's attendants were dressed in stylish suits of crepe with harmonizing accessories and wore shoulder corsages of daisies. Miss Bodeman's suit was of rust, Miss Mondrik's of green, Miss Burke's of cinnamon brown, and Miss Mayfield's of plaid.

The bride was given in marriage by her father, Lon Leonard. Miss Leonard was becomingly dressed in navy blue suit with navy accessories and carried a shower bouquet of pink roses and perennial sweet peas.

She is a graduate of the Yoe High school and is well known and loved in this city. Prior to her marriage Miss Leonard was employed as secretary to Rev. Vernon G. Miles, pastor of the local Baptist church.

The bridegroom is the son of Mr. and Mrs. August Hartung of Lockhart. He is a graduate of the Lockhart high school, of the S. W. S. T. College, San Marcos; attended the University of Texas and is now working on his Masters Degree from the University.

MR. CUSTOMER . . .

WERE YOU SATISFIED?

Did the prescription we filled help Junior's cold? Were you pleased, Mr. Customer, with that new lotion we recommended? That beach-ball you got here last week—was it the bargain we said it would be? How about it, Mr. Customer—were you satisfied?

The Answer is Invariably "Yes"

"Yes," because, in the long run, satisfaction comes with accuracy. Accuracy and truthfulness in our recommendations. Accuracy in the way we fill prescriptions—pure, costly ingredients, accurate weights and measurements, accurate because of absolute cleanliness and care in filling. And yet the thoroughness, detailed correctness, with which we run our prescription department is only typical of all our business dealings. We urge you to try the services of Dusek Drugs.

To the People of Precinct 1

I sincerely thank the voters who supported me in the Democratic Primary Election and thereby placed me in a run-off election to be held on August 22, 1936. For the vote and support given in Precinct No 1, I am grateful.

I will, indeed, appreciate your further support. I earnestly solicit the support of the citizens who voted for me in the primary and for those who voted for the defeated candidates.

In later years Leland Green and Leslie Green, were interested in the business. When they retired he took his son, Chas. Frank Green as partner.

Published reports that a London hospital had developed a successful treatment for hay fever caused a virtual stampede that took the institution's officials by surprise. Hundreds of hay fever sufferers applied in person for treatment and floods of inquiries poured in by mail and telephone. The United Kingdom evidently has its "quota" of hay fever victims and there, as in our country, their quest for "cures" is anxious and unceasing.

The treatment announced by the British hospital was developed, it was explained, after five years research by its physiotherapy department. Whether it will prove the long-sought cure for all types of the malady can only be determined by this and a much wider application than it has had thus far. Many doubt the reported claims of its efficacy, but thousands of hay fever victims, their families and friends, will await the further tests with keen and anxious interest.

IGA Clerk Finding Way To Overcome Extreme Heat

Chicagoans sweltered as the searing summer heat swept over the nation, bringing the thermometer readings of over 100 degrees.

But as cool as the cucumbers in the bin before her, pretty Lucille Booster, clerk in George Kocalis' Northshore IGA Food Mart, went about her business of serving her customers.

Lucille, thanks to her boss, has found the real secret for defeating the stifling weather. She was clad in sleeveless sports shirt and shorts—an innovation in duty wear for grocery clerks, its true, but take it from Kocalis, a popular one.

When the heat wave struck, Kocalis evolved the plan of having his prettiest woman clerk don the abbreviated attire. For years he has seen her and others in the grocery trade go about their duties burdened with considerable clothing—sometimes with an added apron or smock for good measure—and he was ready to effect a change.

The appealing figure in shirt and shorts moving about the store drew wide attention and the enterprising merchant was soon deluged with compliments not only from the men folks but the women customers as well. The latter expressed the opinion that the idea was not only within the bounds of common sense but was a step forward in meeting the hot weather relief problem for the girl clerks.

So far Kocalis has not worked out a plan for outfitting his men clerks under like conditions.

Mr. and Mrs. Stanley Swift, Mr. and Mrs. Stanton Dossett an dMr. and Mrs. Bassett Watson formed a party to visit the Texas Centennial in Dallas, going up Saturday and returning Monday afternoon.
